Skills

Security & Support

- Endpoint protection, EDR/XDR
- Log analysis & root-cause analysis
- Windows troubleshooting
- Network troubleshooting
- Digital forensics fundamentals
- AI-assisted workflows (ChatGPT, Claude, Copilot)

Cloud & DevOps

- Experienced using Docker, Jenkins, Grafana
- GitHub, CI/CD basics
- Linux
- AWS & Azure fundamentals

Programming & Data

- Python
- Java
- PHP/Laravel
- JavaScript (React, Node, Express)
- SQL (MySQL), MongoDB
- HTML/CSS

Soft Skills

- Problem-solving under pressure
- Fast, independent learner
- Time management and prioritization
- Cross-functional collaboration
- Ownership and accountability

PROFILE

IT professional with hands-on experience in enterprise security, troubleshooting, and systems analysis. I can manage multiple tasks under pressure, pick up new technologies quickly, and take ownership of problems from investigation to resolution. Analytical and naturally curious, with a background in Digital Forensics, I'm focused on growing my career in cybersecurity, networking, and cloud.

PROFESSIONAL EXPERIENCE

Trend Micro| DevOps Platform Engineer

OCT 2025 - Present

- Managed and resolved multiple platform and security support cases daily for enterprise customers under time-sensitive conditions, maintaining quality and clear communication.
- Performed troubleshooting and root-cause analysis in customer Windows environments using system/application logs, Grafana dashboards, and AI-assisted tools, reducing repeat escalations.
- Diagnosed network-related product issues with agent-to-console connectivity, proxy and firewall configuration, and communication failures across enterprise deployments.
- Identified security vulnerabilities in customer Windows environments and recommended hardening measures aligned with industry best practices.
- Completed the New Engineering Program (NEP) and owned closed-case quality handling, validating resolutions and documenting root causes for future investigations.

Kapiton Solutions Inc. | Full Stack Developer Intern

Mar 2025 - Jul 2025

- Developed and maintained scalable backend systems with Laravel in Dockerized environments, contributing to feature rollouts and reliability improvements.
- Managed collaborative workflows in GitHub and assisted with containerized deployment pipelines for consistent releases.

EDUCATION

National University Manila

2021 - 2025

Bachelor of Science in Computer Science with Specialization in Digital Forensics

CERTIFICATIONS

Intermediate SQL — [DataCamp, 2025]

IBM Cloud Essentials — [IBM, 2025]

Threat Intelligence Analyst Foundation — [ArcX, 2026]

Endpoint Security — [Cisco, 2026]
